Subject: EQC to meet March 19 and 20 in Helena

The Environmental Quality Council will hold its next meeting of the interim on March 19 and 20, 2014 in **Room 317** of the State Capitol. The EQC will continue to discuss the HB 609 study of Montana's hunting and fishing licensing system and the SJ 15 study of federal land management. The EQC will receive updates on various other topics as well, including the state water plan, the CSKT water compact, bison and sage-grouse management, FWP forest management planning, the Block Management program, Nutrient Standards and Variances rulemaking by the DEQ, the Renewable Resource Grant and Loan program, and the Sand and Gravel Deposit program.

More information about the EQC and the upcoming meeting can be accessed at the EQC homepage at <http://leg.mt.gov/eqc>.

Information about live-streaming the meeting is available on the [Legislative Internet Broadcasts](#) page.
